Hand-painted in Talkeetna, I produce acrylic dot art on laser cut ¼" thick birch wood. All pieces are sealed with heavy varnish so the texture of the dots can be enjoyed without damaging the artwork.

These items make great gifts and souvenirs while being easy to pack into a suitcase for travelers. Fragile shapes (such as the Alaska state shape) are reinforced to prevent breakage.

ANY damaged item (whether in transit, at the shop, damaged by guest, etc.) is eligible for free replacement as long as the damaged piece is returned. If an item in your order becomes too damaged for sale, contact me and I'll replace it at no cost!

Every order is hand-painted and customizable. Check out the following pages for examples of the various shapes, color schemes, and product types.
